Subject: RE: WaterSense background for OK HUD meeting on 8/19

I do not believe David will be able to make this presentation. He is deployed to Santa Fe as part of the Gold King Mine response. My understanding is that he will be gone approximately 10 days.

David – Do you want us to send our regrets to the conference organizer explaining the situation?

Subject: WaterSense background for OK HUD meeting on 8/19

Hello David

Thank you for speaking at the HUD meeting in Oklahoma City on 8/19. Jim Brown has already sent you the presentation on Climate Change Adaptation. And, Hillard Berry with HUD has advised me that he has sent to you some additional speaker information.

Hillard has asked for some WaterSense materials to share with the attendees and I will be mailing those directly to him this week. My business cards will be available at the event so folks can contact me directly for additional questions on the WaterSense Program.

Also, attached is a general presentation about the WaterSense Program for your reading pleasure. HUD (OK division) and the City of Moore are interested in becoming a WaterSense Partners and might ask you some general questions about the program.

If you need anything else, just let me know.

Cheers-

Debora Browning
